

Valuing students as individuals

Waingels College

Maths &
Computing

Specialising in Maths
and Computing

Welcome

Waingels College is a very successful and well-established comprehensive school offering a high quality education to over 1,500 students from the ages of 11 to 18.

Our examination results place us in the very top tier of state schools in the country. A fact acknowledged by our regular inclusion in The Top 200 list of schools.

Our students' achievements in culture, sport and the wider community, as well as their academic results, are a testimony to the hard work and commitment of our team of professional staff. They also reflect our expectation of the very highest standards from every member of our community.

Above all Waingels is a welcoming place, proud of what our students and staff achieve. Come and see those achievements for yourself.

Richard Green
Principal

A Confident Start and a Supported Future

An open invitation to see for yourself

No written information can adequately convey the vibrancy of a College like Waingels. We warmly invite you to come and see what we have to offer yourself.

We hold an Open Evening Week and Evening in October every year when our students and staff will be proud to show you their work.

We are also happy to arrange visits at other times of the year.

Please drop in to speak to our Receptionist in person or telephone the College on 0118 969 0336 or email ht@waingels.wokingham.sch.uk

Investing in our children's future

Waingels is one of the best resourced and most generously staffed state schools in the country.

Careful and efficient financial management has enabled us to maintain an average teacher to student ratio of 1 to 25 in lower school lessons, falling to 1 to 20 in the upper school and less than 1 to 15 in our thriving Sixth Form.

Teachers and students are also supported in the classroom and elsewhere by a growing team of well-trained and qualified professionals including technicians, health workers, counsellors, administrators, behaviour specialists and learning assistants.

As well as our most valuable resource – people – we have also invested heavily in the very latest technology to support learning. We are also currently in the process of spending in excess of £1m on new teaching and learning accommodation and upgrades to key areas such as our library and dining rooms.

Combined with our semi-rural location, these resources make Waingels a world-class learning environment.
